

SOUTH AMERICA - EXPLORA TORRES DEL PAINE EXTENSION

INTRODUCTION

Explora Patagonia was designed as the perfect base from where to explore Torres del Paine National Park. With an exclusive location and unparalleled views, you can choose among 40 explorations – either hiking or horseback riding – to some of the circuits of the renowned W and other less explored routes that will help you get familiarized with the typical geography and wildlife of Patagonia. The rooms are the perfect combination of simplicity and comfort in order to ensure a deep rest after a day of exploration. With amazing views to the Paine Massif, Paine River or Salto Chico Falls, their welcoming and cozy decoration make them a unique place to disconnect yourself and enjoy.

Highlights Include:

Lago Grey: Travel by van to Grey Lake. Start your walk crossing the suspension bridge over the Pingo River and continue through a forest until you reach the lake shore. Once there we walk along the beach to see the glacier and the icebergs that come off it. Return by van.

Laguna Negra: Depart from the stables and ride by horse across rivers, forests and pampas as you ascend towards the viewpoint of the Negra Lagoon. On the way you will pass by several lagoons, ideal for spotting different species of birds such as southern lapwings or Magellanic geese.

Estepa Patagonica: Travel through the eastern sector of the park combining stretches in van with short walks. This sector is mainly characterized by the presence of animals such as guanacos, pumas and flamencos, as well as its extensive pampas, typical of the Patagonian steppe. First, visit the Nordenskjöld Lake viewpoint and the Paine Grande waterfall, then travel by van to the Los Cisnes Lagoon and finally to the Amarga Lagoon.

Mirador Pehoe: Leave the hotel walking along the shore of Pehoe Lake, observing the orchids and ñirre trees that make up the local flora. Ascend to a viewpoint from which you can see the extension of the lake and the Paine mountain range from a different perspective than you have previously from *explora*.
